

BRING YOUR OWN DEVICE

Wi-Fi Connectivity

Connecting BYO Devices

Students should be aware that they are held responsible for their actions while using the internet and online communication services. Students will be held responsible for any breaches caused by other person(s) knowingly using their account to access internet and online communication services. Standard school behavior management procedures apply for misuse of any BYOD item. While at school, all material on the devices is subject to review by school staff. Students are to connect their device to the designated wireless network only. Students are not to create, participate in, or circulate content that attempts to undermine, hack into and/or bypass the hardware and software mechanisms that are in place. The school reserves the right to restrict/remove access of personally owned mobile devices to the intranet, internet, email or other network facilities to ensure the integrity and security of the network and to provide a safe working and learning environment for all network users. The misuse of personally owned mobile devices may result in disciplinary action which includes, but is not limited to, the withdrawal of access to school supplied services.

Preparing a New BYO Device

You will need to have your school email address and password.

- Your school **username** is a special set of letters and sometimes numbers, e.g. jodoe3@school.vic.edu.au
- Your school **password** is reset each year.

**** If you do not know your login details, please see your teacher as they will be able to tell you.*

PLEASE NOTE: Any tablets, including iPads and devices using android OS are considered not acceptable under this BYOD model.

You only need to complete **ONE of the following methods to connect your BYO device to the school Wi-Fi. Please either connect at SCHOOL or at HOME. For more comprehensive guides, please check How to Guide links!**

BRING YOUR OWN DEVICE

Wi-Fi Connectivity

MARIBYRNONG

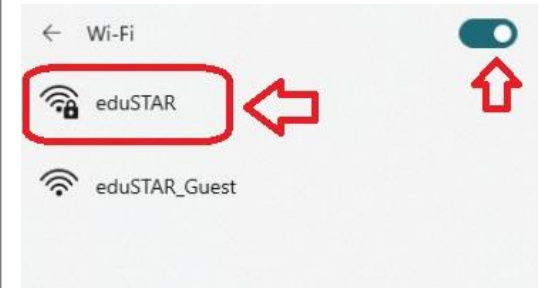

Connect to Wi-Fi & Internet @ **School**

- At the school, select **eduSTAR** from the list of available Wi-Fi networks.
- Enter your school email address and school password from your Login Information email or ask your teacher or coordinator.

- You might be asked to select **Continue** if you trust the network or a certificate to connect.

- Allow or continue to finish the connection.

HOW-TO CONNECT TO WIFI AT SCHOOL

 [Windows](#),  [macOS](#) and [Chromebook](#)

Connect to Wi-Fi @ **Home**

If you are a new student, you can enroll your device before coming to school. This will allow your device to connect to the school Wi-Fi as soon as you arrive.

Install Microsoft Company Portal.

Intune Company Portal is available for

Company Portal

Download Microsoft Intune Company Portal for your device
